DISCOVER INTRINSA®

Plants Powered for a Greener Future

Intrinsa® varieties harbor natural resistances as defenses against specific pests and diseases; providing strong and healthier plants.

Many of our Garden Mums include built-in resistance to White Rust, helping reduce risk while improving crop reliability.

What This Means for Growers & Retailers:

- Fewer crop losses
- Lower chemical inputs
- More consistent performance

*Imagine a future
where plant disease
is a thing of the past!*

**INTRINSA® BREEDING:
HARNESSING THE POWER WITHIN.**

Intrinsa® breeding is your best defense against disease with the power coming from within the plant itself.

The Intrinsa® breeding program from Dümmer Orange identifies and isolates the perfect genetic strain in DNA for naturally occurring resistance against known viruses.

Look for this icon throughout this catalog to identify the gorgeous varieties created using Intrinsa® advanced breeding technology.

Remember:

Intrinsa® = WHITE RUST RESISTANCE
