

ZONAL GERANIUM

PROPAGATION

PELARGONIUM SAVANNAH

Pelargonium x hortorum

TRAY & ROOTING

Form	Vegetative Cutting
Rooting Hormone	Yes
Tray Size	32, 52, 72, 102 strip
Plants Per Cell	1
Days In Mist	8-16
Wks. From Stick To Transplant	3-4
Pinch?	No
Days To Pinch	N/A

FERTILITY

Fertilize Through Mist?	Optional
Fertilizer Rate	Moderate: 100-150 ppm (20-10-20 constant feed)
EC Range	Moderate (1.0-1.5 mS via SME)
pH Range	6.0-6.4

TEMPERATURE

Vernalization Required?	No
Average Soil Temperature	68-72°F (20-22°C)
Average Air Temperature	65-72°F (18-22°C)

IRRIGATION FREQUENCY

Level 3: keep media moderately moist at all times

LIGHT (SUPPLEMENTAL)

No

SHADE

Keep light intensity between 700-1200 fc (7500-12900 lux) until callus formation, 2000-2500 fc (21500-26900 lux) during root initiation, and 2500-4000 fc (26900-43100 lux) for toning.

POTENTIAL DISEASES

Xanthomonas, Rhizoctonia, Botrytis

POTENTIAL PESTS

thrips, aphids, fungus gnats

PGR SUGGESTIONS

- 1,500-2500 ppm *Daminozide* (85%) spray
- *Ethephon* (3.9%) at 350-500 ppm can be used for bud removal and branching 12-21 days after stick (when liners are rooted). Do not apply within 6-8 weeks of ship date.

Savannah Merlot Sizzle

TIPS

Apply a 200 ppm IBA spray (or equivalent product) within 24 hours of sticking to aid root formation.

- Only mist enough to keep leaves turgid.

ZONAL GERANIUM

FINISHING

PELARGONIUM SAVANNAH

Pelargonium x hortorum

CONTAINER SIZE	PLANTS PER POT	EARLY SEASON	MID SEASON	LATE SEASON
----------------	----------------	--------------	------------	-------------

4 in. (10 cm)	1	7-9	6-8	5-7
---------------	---	-----	-----	-----

6 in. (15 cm)	1-2	8-10	7-9	6-8
---------------	-----	------	-----	-----

8 in. (19 cm)	2-3	8-11	7-9	6-9
---------------	-----	------	-----	-----

10 in. (22 cm)	3-4	9-12	8-11	8-12
----------------	-----	------	------	------

FERTILITY

Fertilizer Rate	Moderate: 125-200 ppm N (15-5-15 at or similar calcium-nitrate formula alternated with 20-10-20)
-----------------	---

EC Range	High (2.0-2.5 mS via SME)
----------	----------------------------------

pH Range	6.0-6.4
----------	----------------

TEMPERATURE

Day Temperature	65-75°F (18-24°C)
-----------------	--------------------------

Night Temperature	58-62° (14-17°C)
-------------------	-------------------------

IRRIGATION

Irrigation Frequency	Level 3: keep media moderately moist at all times
----------------------	--

LIGHT

Daylength Neutral?	Yes
--------------------	------------

Supplemental	No
--------------	-----------

Benefits From Shade?	No
----------------------	-----------

PINCHING

Finishing Pinch?	No
------------------	-----------

POTENTIAL DISEASES

Xanthomonas, Rhizoctonia, Botrytis

POTENTIAL PESTS

thrips, aphids, fungus gnats

PGR SUGGESTIONS

- 500-1500 ppm *Chlormequat* (11.8%) as needed
- 1200 ppm *Chlormequat* (11.8%) + 2500 ppm *Daminozide* (85%) tank mix

Savannah Punch

TIPS

Utilize fertilizer formulations low in phosphorous and ammonium to help control stretch, increase branching, increase shelf life, and encourage full flowering.

Consider direct-stick with callused cuttings to reduce overall production time by 1-2 weeks.

ZONAL GERANIUM

FEATURES AND BENEFITS

PELARGONIUM SAVANNAH

Pelargonium x hortorum

DESCRIPTION

Savannah is a mid-season zonal geranium series with a semi-compact habit.

KEY GARDEN INFORMATION

Exposure	Sun to Partial Shade
Height	18-24 inches (46-61 cm)
Garden Spacing	18-24 inches (46-61 cm)
Watering instructions	Allow soil to dry slightly between thorough waterings.
Hardiness Zone	10-12

CONSUMER APPEAL

- Distinctive contrast between the dark leaf color and bright flowers make the cultivars in this series *pop* at retail.
- Savannah® features the best zonal heat tolerance on the market.

GARDEN ATTRIBUTES

- If planted in the landscape, Pelargonium prefer rich well-drained soils. However, they can tolerate heavy clay soils if not overwatered.
- Although not favored by bees, the long bloom season and bright flowers of Pelargonium naturally attract hummingbirds. Additionally, their recognizable foliage aroma is a natural deterrent to rabbits, deer, and herbivorous insects.
- Pelargonium can be overwintered indoors for extended seasonal interest.

NATIVITY

Of hybrid origin: parental lineages native to Southern Africa.
